

Activation teams: paid and owned are different planes

Match the tool to the channel

1

Paid: GSPM

Native activation to paid destinations such as Meta and LinkedIn, with performance returning to Insights.

2

Owned: AJO and Target

Journey Optimizer runs journeys.
Target runs tests.

3

Workfront in the middle

Approved assets and metadata pass on natively or through Fusion.

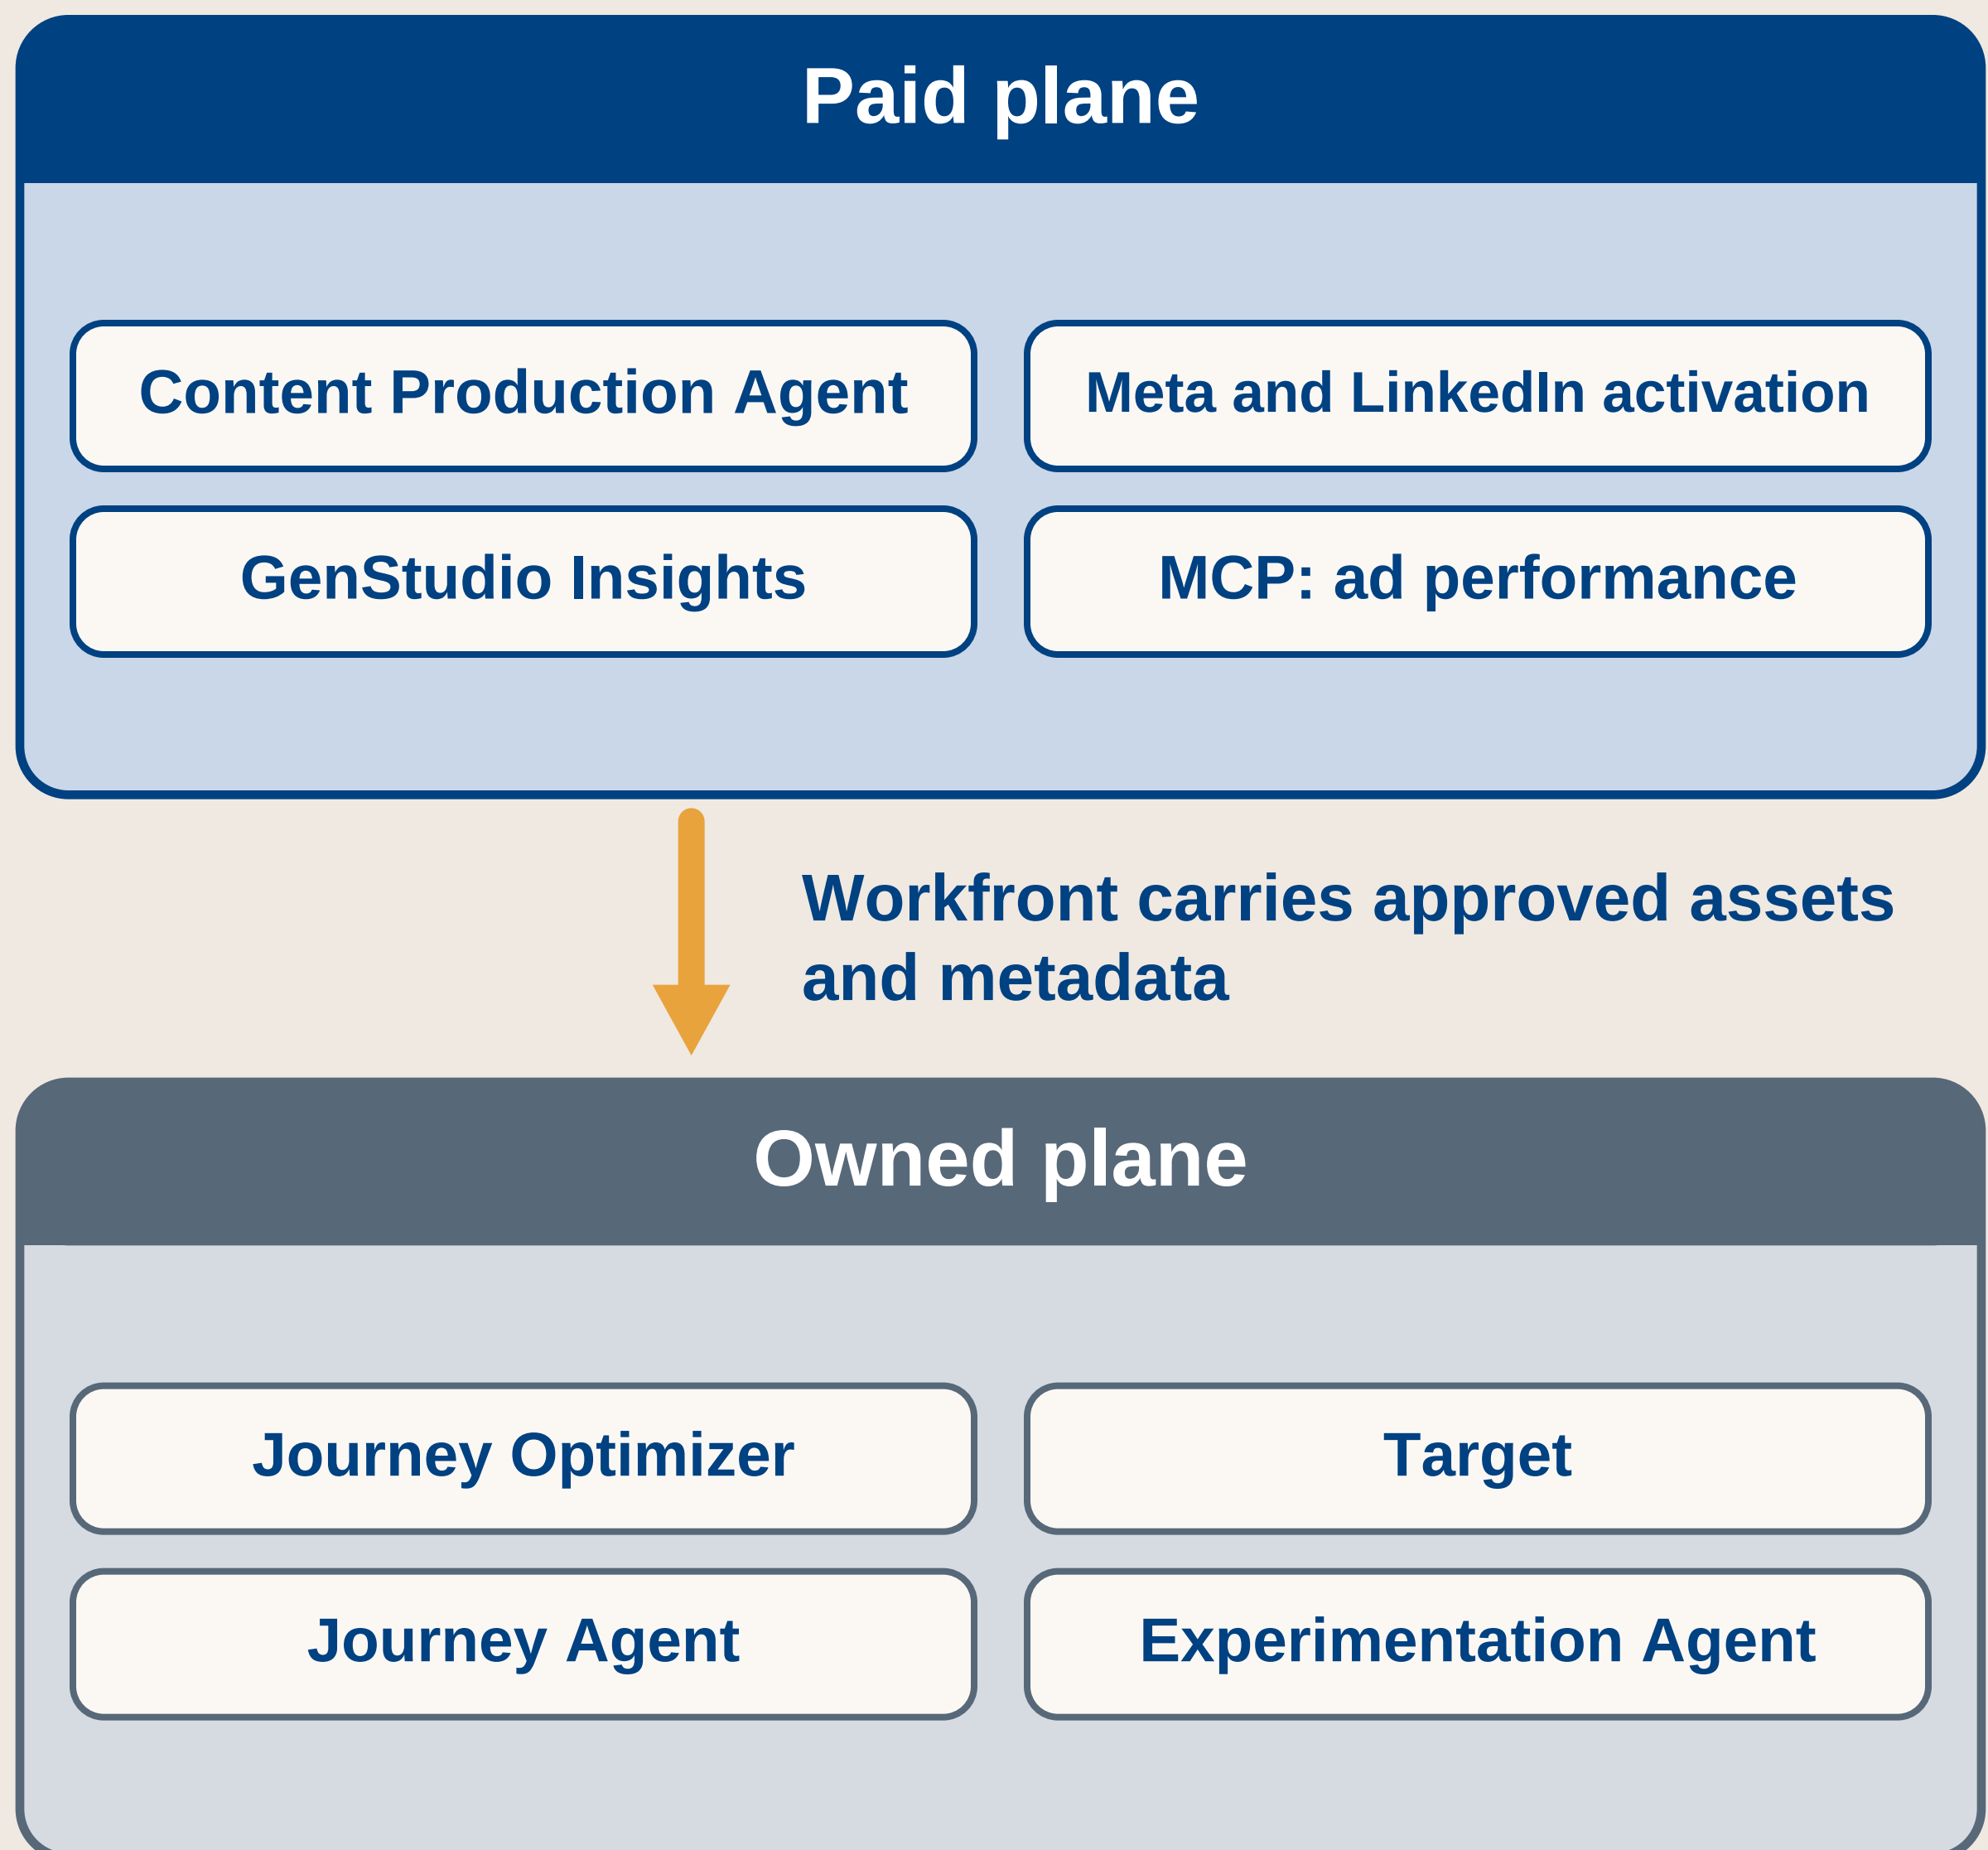

4

No re-keying

Build Target tests from structured Workfront deliverables, not by hand.

4

Two planes, one handoff

Scope agents by plane. Paid and owned have different agents, and Target's MCP is read-only for now.

ADOBE TOOLS TO KNOW

Content Production Agent

BETA

Journey and Audience agents

DOCUMENTED

Experimentation Agent

DOCUMENTED

Target MCP (read-only)

BETA

Status as of Sept 2026. Confirm in your own tenant.

BEST PRACTICES

One agent scope per plane.

No agent write flows into Target yet.

ADOBE DOCS

Let Workfront carry approved assets across planes.

Untagged items are design advice.
