

Reference approved assets, don't copy

AEM Assets stays the source of truth.

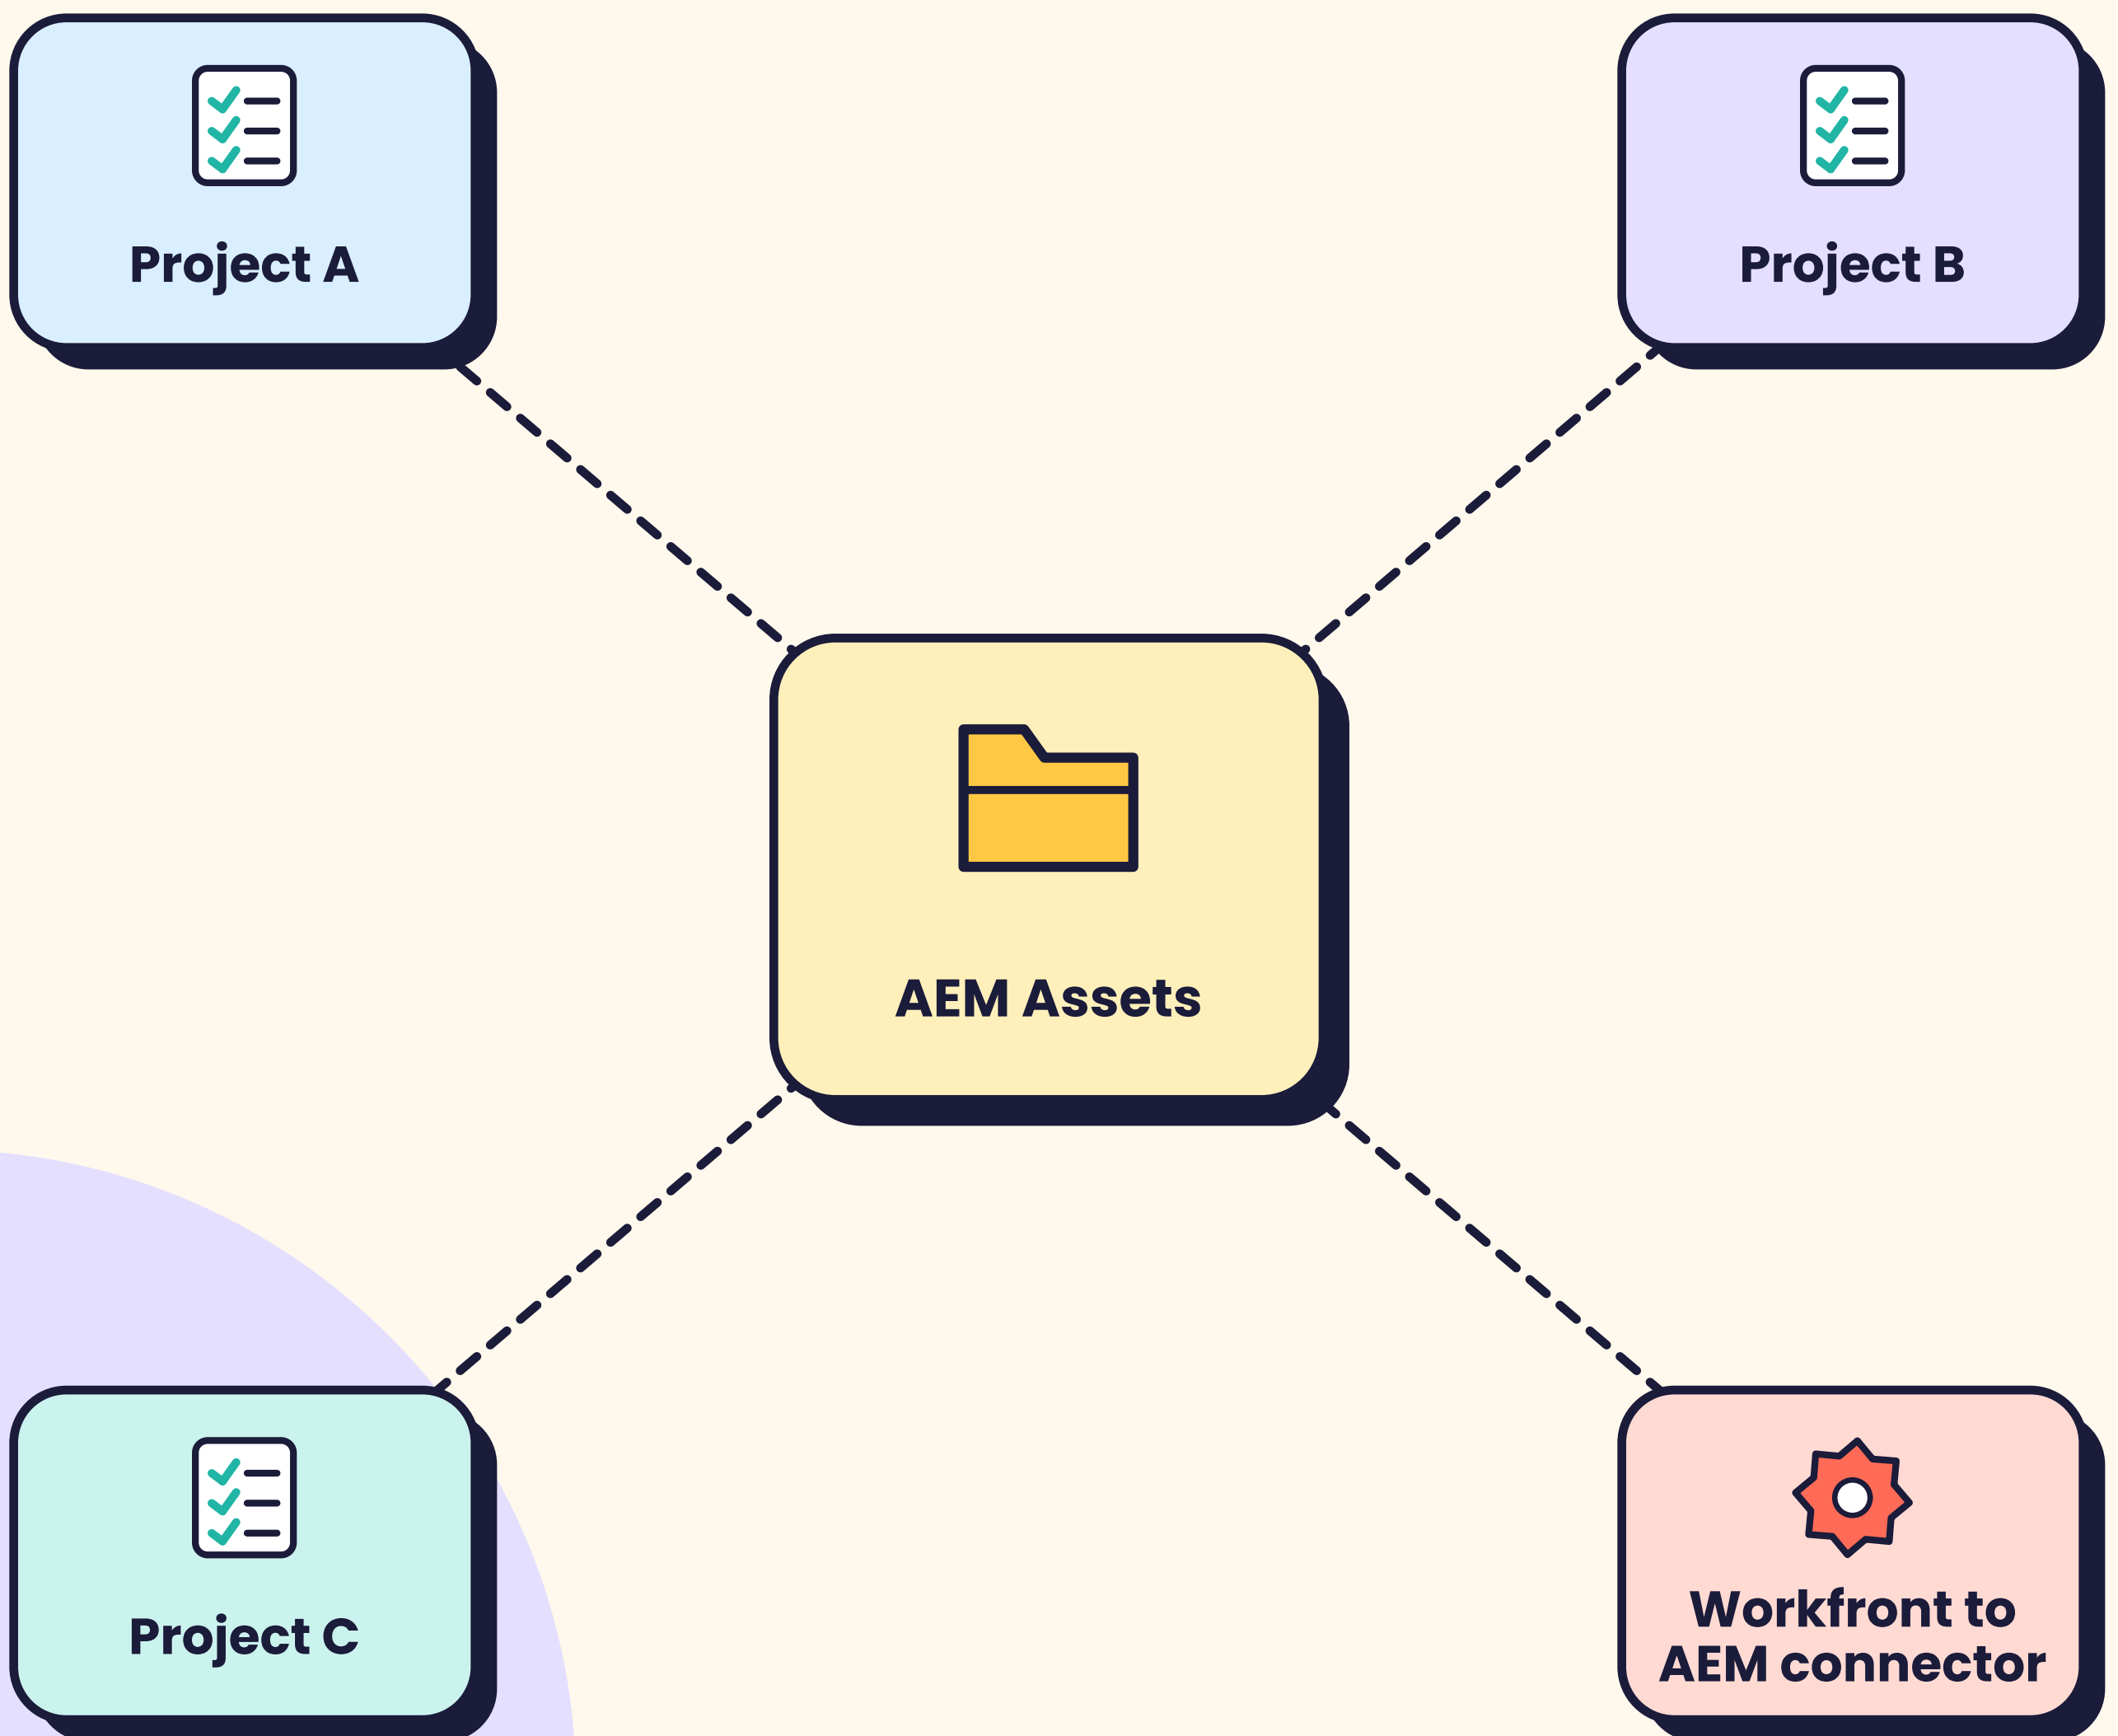

reference, not copy

one original

1 One original, many references

Attach in context from Workfront.

2 Clearance is a status

Not an email attachment.

Asset approved in AEM

a governed status

Status visible in Workfront

production sees what is cleared

Reuse by reference

Asset Selector or Content Advisor

3

Where agents fit

Find with language. Return references.

Content Advisor Agent

natural-language asset search

documented

Read-only MCP

search and reuse without writes

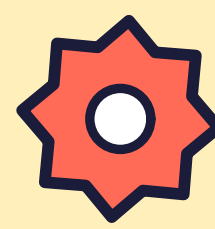

least privilege

Brand Governance

policy checks on reuse

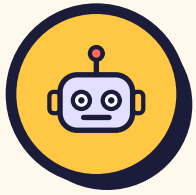

documented

Fusion AEM MCP

prompt-driven AEM steps

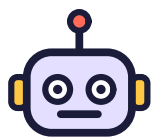

released Aug 2026

Agentic angle

Content Advisor Agent finds approved assets in AEM. Have agents return references, never copies.

ADOBE TOOLS TO KNOW

Content Advisor Agent

DOCUMENTED

AEM Content MCP (read-only option)

DOCUMENTED

Brand Governance Agent

DOCUMENTED

Fusion AEM MCP connector

RELEASED

Status as of Sept 2026. Confirm in your own tenant.

Sources on slide 7

Best practices

Use the read-only endpoint for search-and-reuse agents.

ADOBE DOCS

Require the AEM reference and approval status back.

Let asset status gate reuse, not memory.
