

Enforce brand at generation, not in review

Move the guardrails upstream.

guardrails first

reject bad input at the boundary

1 Brand at generation, human at the end

Layer the controls.

Brand context and guidelines

the Create canvas guardrail

Generate with templates and models

Firefly Custom Models

Automated brand check

before it reaches review

Human approval

the final decision stays human

2 The pieces Adobe now offers

Some are new. Check availability.

Brand Intelligence

learns from reviews and approvals

announced Apr 2026

Governance MCP

checks content against brand rules

documented

Custom Models

the brand look in the model

Firefly

Claims library

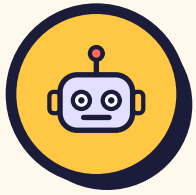

governed claims at create time

regulated content

3 Where each control runs

Prevent instead of clean up.

Agentic angle

Brand context, governance checks and custom models now sit close to generation. Keep a human approval at the end.

ANNOUNCED

Status as of Sept 2026. Confirm in your own tenant.

Sources on slide 7

Best practices

Layer controls: context and model, automated check, human approval.

Feed review outcomes back into brand context.

ADOBE DOCS

Confirm availability of announced items before scoping.

Untagged items are design advice.
