

Paid and owned are different planes

Scope agents, and handoffs, by plane.

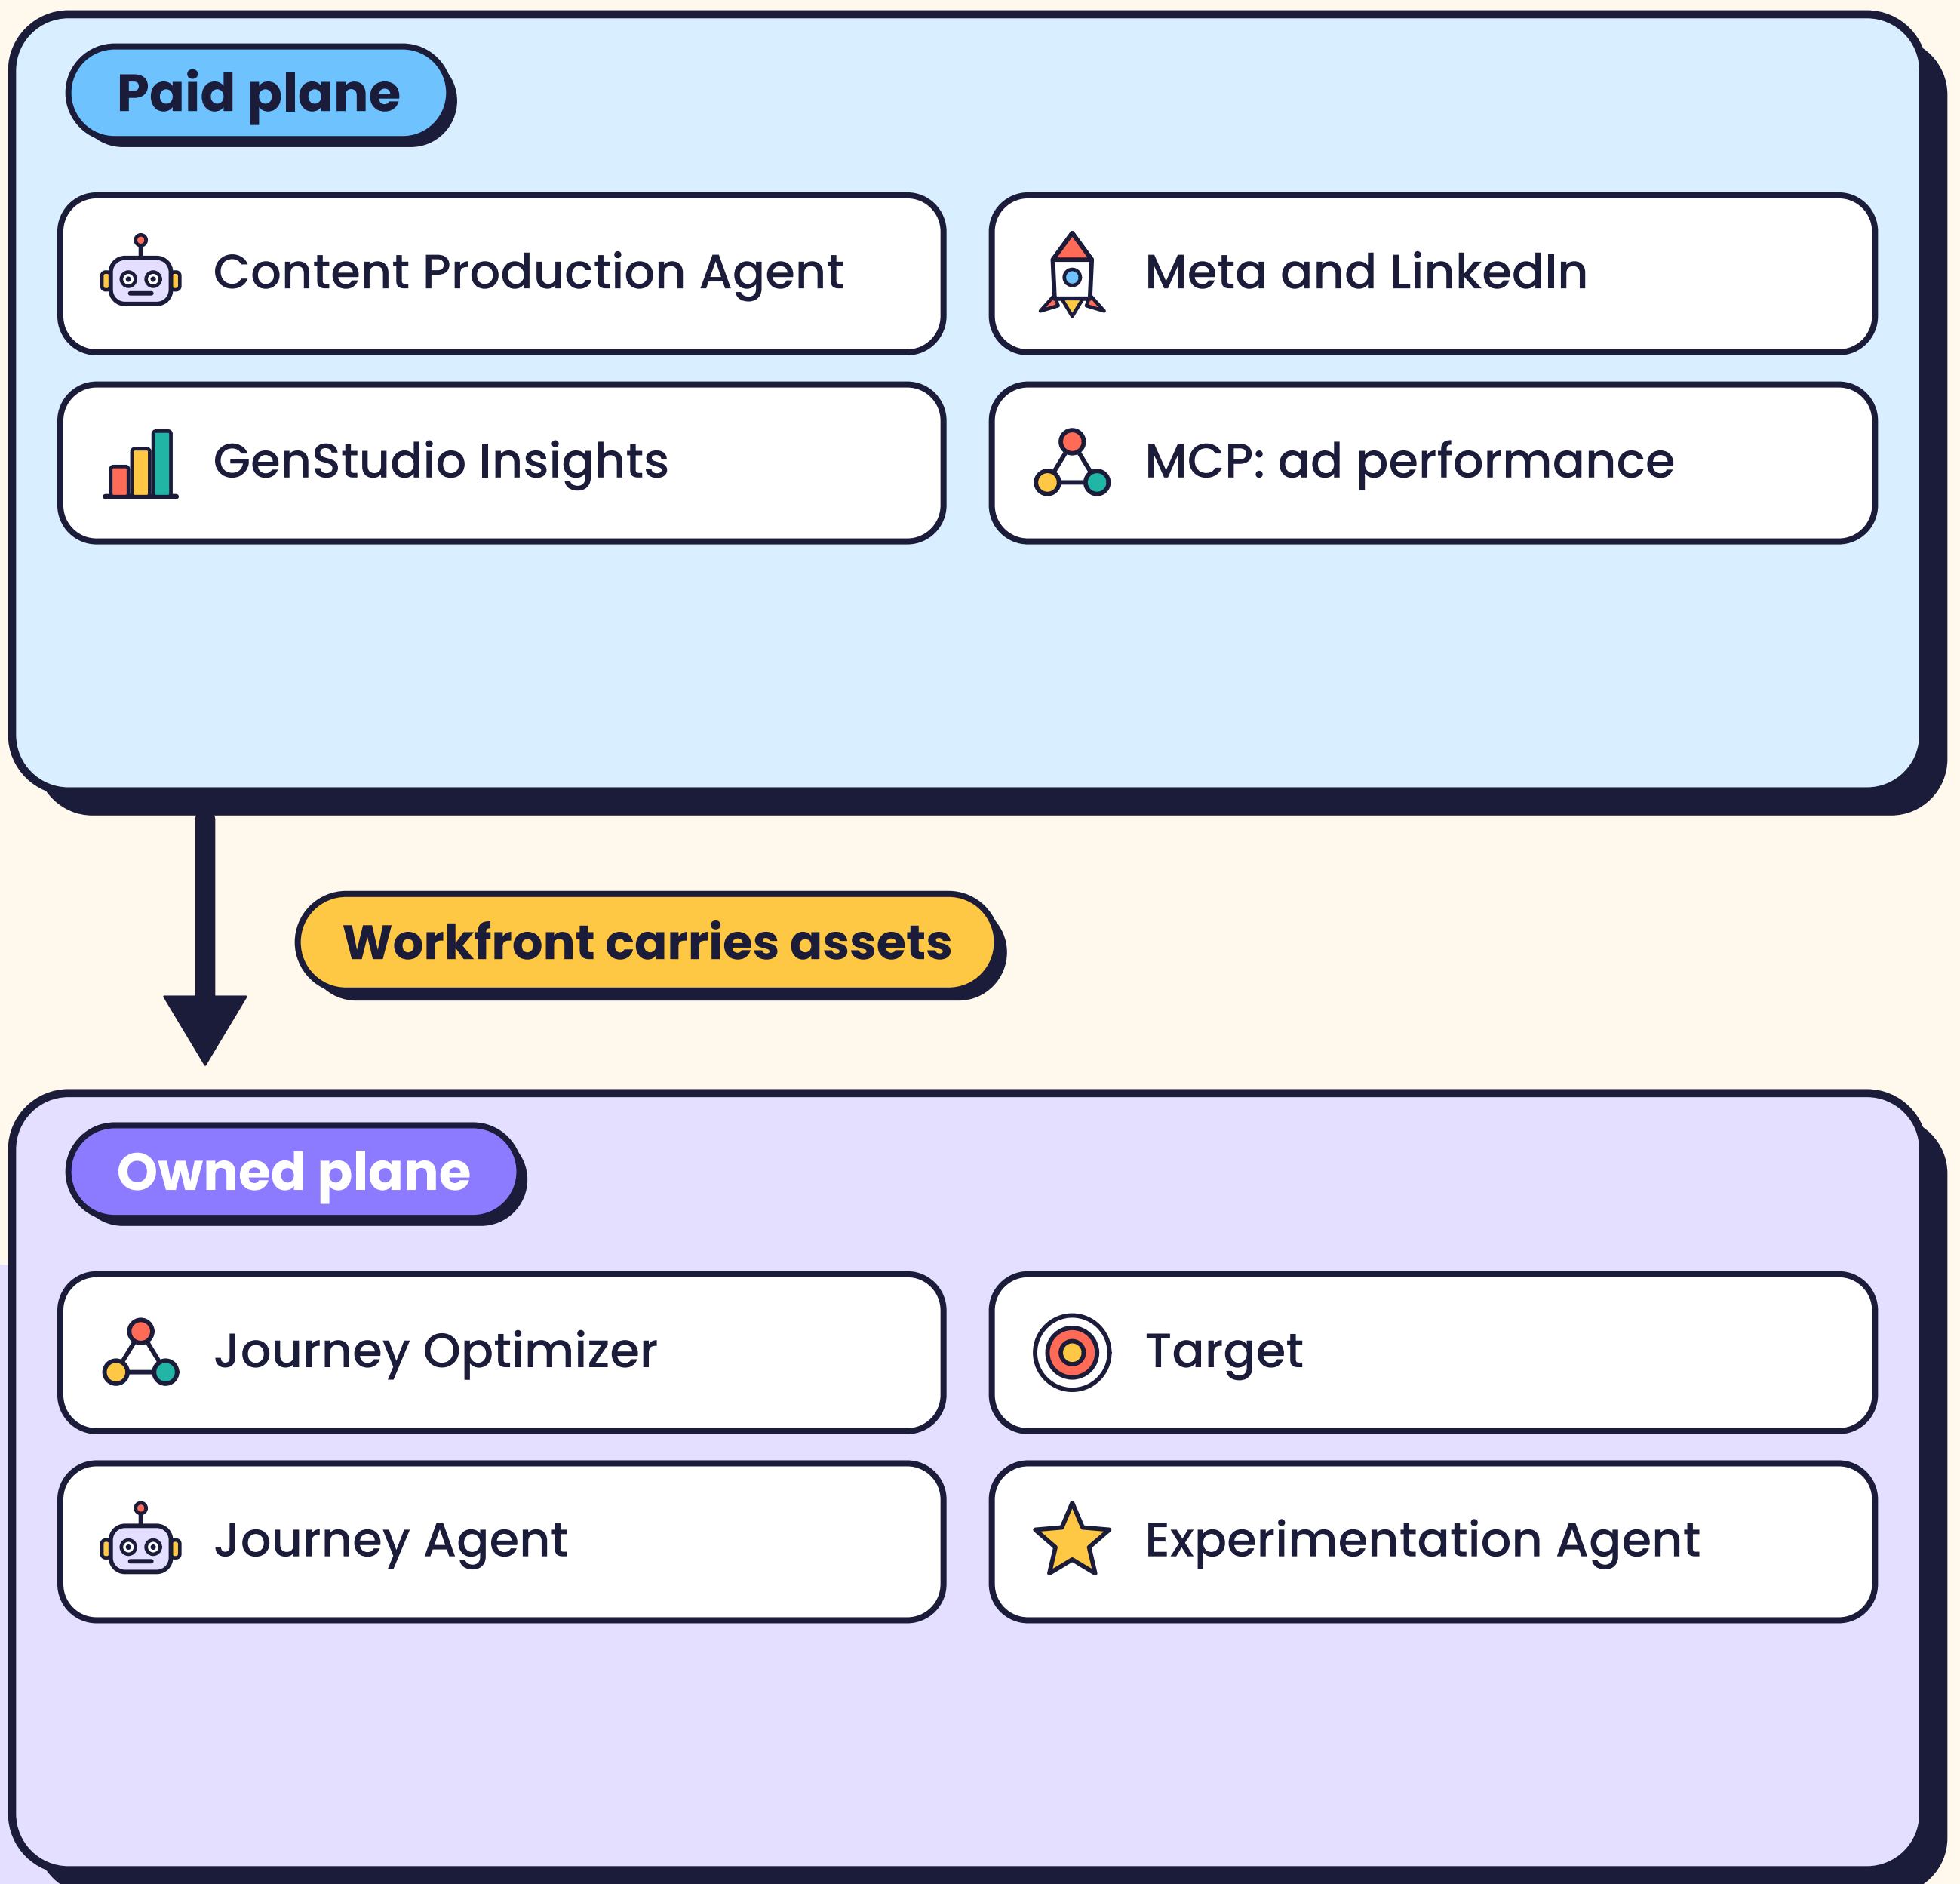

email journeys

one defined handoff

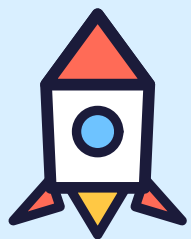

1 Two planes, one handoff

Paid and owned activation.

2 Why GenStudio doesn't run journeys

Its center of gravity is paid.

Paid

activates to Meta and LinkedIn

connectors

Owned

Journey Optimizer runs journeys

AJO

Tests

Adobe Target runs the tests

MCP is read-only

Target MCP is read-only

Write tools are planned for GA. Don't design agent write flows into Target yet.

3 Target tests from deliverables

No re-entering offers by hand.

Structured deliverable in Workfront

offer, audience, assets

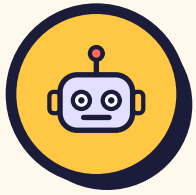

Approved assets and metadata

native or Fusion handoff

Test created in Target

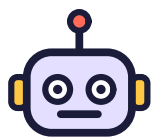

not typed twice

Agentic angle

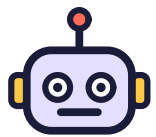

Scope agents by plane. Paid and owned have different agents, and Target's MCP is read-only for now.

Status as of Sept 2026. Confirm in your own tenant.

Sources on slide 7

Best practices

One agent scope per plane.

No agent write flows into Target yet.

ADOBE DOCS

Let Workfront carry approved assets across planes.
